

Save up to 28% on your energy bills*

...with energy efficient windows using PLANITHERM

If you are thinking of installing new windows it makes sense to ensure you specify the most energy efficient solution using PLANITHERM energy saving glass.

Sherwood Windows have been in business for over 22 years and are a small local family business. They are based in Newark, on the Nottinghamshire, Lincolnshire border and have been established since 1991. The Company has built a reputation for its high quality materials, installation and a service second to none. 8 out of 10 customers choose Sherwood Windows as a result of a recommendation from one of our

*Based on a typical semi-detached house, with gas central heating, using the GGF calculator.

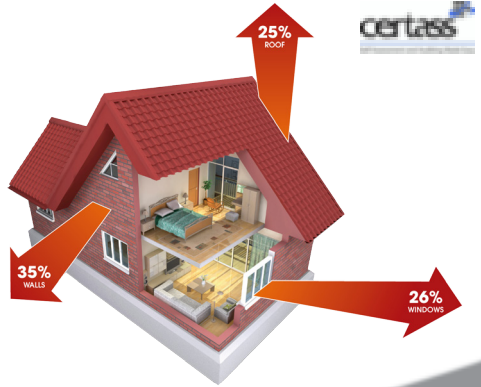

PLANITHERM is the most energy efficient window glass available and the best possible choice for energy savings.

Over a quarter of all domestic heat loss escapes through windows and doors. In these days of spiralling energy bills this can add up to a lot of wasted money.

Insist on PLANITHERM for a lighter, brighter, warmer home and lower energy bills.

Sherwood Windows Ltd is your local, trusted installer of PLANITHERM, the most energy efficient window glass. This is fitted as standard to all our windows & doors. We don't use any 'hard sell' sales techniques. We provide a free measuring up service and quotations confirmed in writing.
